WORK EXPERIENCE:

Oct'24 – Present | Web Designer | Ahead Websoft Technologies Pvt. Ltd, Gurugram:

- Developed and maintained over 50+ frontend modules for Social Networking Solutions, Focusing on Social engine plugins and themes.
- Translated UI/UX designs into responsive, cross-browser-compatible web interfaces using HTML5, CSS3, JavaScript.
- Collaborated with backend teams for seamless API Integration and real time features rollouts.
- Resolved Frontend Issues and client-side issues swiftly to maintain high customer satisfaction.

Jul'23 – Sep'24 | Front-End Developer | Cloud Infosystem, Mohali:

- Developed responsive, user-friendly web interfaces with HTML, CSS, and JavaScript, ensuring smooth back-end integration.
- Collaborated with UX/UI designers to convert wireframes into functional, high-quality code.
- Optimized applications for speed and scalability while maintaining code quality through standards and reviews.

PROJECTS:

Thunderscript

- Developed responsive user-end interfaces with React, ensuring smooth navigation, optimized performance, and reliable, bug-free user experiences.
- Built and maintained admin-panel dashboards with React, handling user management, filters, and platform workflows using clean, reusable components.

RealtorX - Smart Real Estate Listing Platform

- Developed a responsive real estate listing interface with advanced property search and filtering to enhance user experience.

Motofy – Car Listings & Marketplace Platform

- A Social Engine-based platform for listing, searching, and comparing new and used vehicles with advanced filters and media support. Frontend development included responsive UI implementation, performance optimization, and self-testing to deliver a stable, user-friendly experience.

HotelHive – Hotel Booking Platform

- Designed a user-friendly hotel booking interface and customized third-party plugin features to meet business requirements.

CT IT Group

- Created a fully responsive corporate website with a clean layout and strong mobile usability.

Clubdunes.com

- Contributed to frontend development of a UAE-based social networking platform focused on communities and events.

1manch.com

- Designed intuitive dashboards, forms, and role-based user flows for a digital workflow automation platform.

The Bizzwave Consulting

- Built a responsive consulting website with a user-centric interface aligned to business goals.

Bala Maintenance

- Developed a service-based platform interface connecting customers with skilled maintenance professionals.

The Quotient Life

- Led frontend development of a content-driven platform to improve content accessibility and user engagement.
